

Sinclair Broadcasting's should be thanked for broadcasting the Kerry piece. It is nice to see a company doing what they think is right and fair.

The soldiers in that piece have earned the right to speak what they believe. I think it is very wrong for the FCC to get involved. There have been many false things said and aired against Pres. Bush and nothing has been done to those people or stopped their shows. Dan Rather lied!!! and nothing was done to him. If you think you should do something to stop people who are telling the truth then what should you be doing to people who openly lie.

Thank You Very Much,
Gene McMullen (Retired Vet)
